

Spring Is Here (3/25/17)

Spring is the time of year when John & Jessica gather in the deluxe living room, play favorite records for each other, and offer their observations and stories. Just as they do all the other times of year. But now the temperatures are warmer, the days are longer, and there are blossoms on the trees, which probably influence their selections they make and the stories they tell. Spring is here and here it's deluxe.
